I. General Information

The New Jersey Division of Family Development (DFD) and Conduent State and Local Solutions has implemented an Interactive Voice Response (IVR) system for providers using for the New Jersey Electronic Child Care (ECC) system. This is the system DFD is using to record the time and attendance of children in child care facilities. The provider equipment necessary to use the Interactive Voice Response system is a simple touch tone telephone and a telephone land line. This Interactive Voice Response system is referred to as IVR. The provider's telephone number must be registered with DFD in order to participate in this system.

A child's parents and/or designees must use this IVR from the provider's registered land line telephone phone to enter time and attendance information for children receiving subsidized child care services.

It is very important that the parent or designee check their child(ren) in and out of your facility every day. For policies regarding Electronic Child Care, please refer to your Child Care Resource & Referral Agency (CCR&R).

The IVR will provide you with a daily confirmation of the times children have checked in or out of your facility. This information is also available through a link on the web site www.echildcarenj.org. The IVR allows a provider to void a transaction for a specific child by transaction number.

II. Glossary

The following is a list of some of the terms and abbreviations you used in this IVR User Manual.

Conduent State and Local Solutions – Conduent is the company under contract with the New Jersey Division of Family Development (DFD) to install and maintain the Electronic Child Care (ECC) system.

Child Care Resource & Referral Agency (CCR&R) – The agency responsible for providing guidance and assistance in child care matters to child care facilities and parents.

New Jersey Division of Family Development (DFD) – The agency responsible for implementing the Electronic Child Care system.

Electronic Child Care (ECC) – The name of the system used to record child care time and attendance and deliver payment.

Interactive Voice Response (IVR) – The IVR equipment used at your center to check children in and out or for providers to confirm or void attendance using a touch tone telephone. The Parent ECC IVR is used by parents and designees, while the Provider ECC IVR is used exclusively by providers. Each IVR utilizes a separate toll-free number.

III. Call Centers

Provider Help Line

Providers can call 1-877-516-5776 for help with:

- Questions about the operation of the IVR system
- Technical difficulties with the IVR system

Cardholder Call Center (for parents or designee)

Parent and designee customer services are available through the Cardholder Call Center 1-800-997-3333 for persons having problems performing transactions or determining who the approved provider is for their child(ren). Parents who have questions regarding their eligibility will be referred back to their local CCR&R.

Provider Help – Agreements and Payments

If you have a question about the status of agreements, payments or program policy questions, you will need to contact your local CCR&R. The contact information can be found on the DFD web site at <http://www.state.nj.us/humanservices/child/ccrr/index.html> or your local telephone directory.

IV. Attendance Transactions

Attendance transactions allow the parent to record the duration of the child care services by performing various types of transactions on the Parent IVR system. Under normal circumstances a parent or designee will perform a Check In transaction when the child is dropped off at the facility and the start of child care services begin. When the child leaves the facility a Check Out transaction is performed to capture the ending time of the child care services. There are a variety of transactions that can be performed to accurately record these times. It is important to remember that while children may be dropped off and then attend school during the day and return later in the day, that each attendance can be recorded with the four basic transactions including Check In, Check Out, Previous Check In, and Previous Check Out. The parent or designee performs those transactions through the Parent IVR. In addition, the Provider IVR allows transactions to confirm attendance and void transactions.

If a child's time and attendance did not get recorded when the child arrived at the child care facility, it may be entered up to 14 days (the current day and the previous 13 days) after the date of time and attendance. The Previous Check In and Previous Check Out transaction is used in situations where the parent or designee is not available to place a call to the IVR at the time the child arrives or leaves the child care facility. Examples of when this transaction must be used include but are not limited to:

- The parent or designee has forgotten the card number and does not have the card in their possession.
- The child is picked up by a bus and transported to the child care facility and a parent or designee is not available to call the IVR.
- The child comes to the child care facility after school and a parent or designee is not available to call the IVR.

In each of the above examples, the parent or designee must use the Previous Check In or Previous Check Out transaction the next time they are at the facility. Previous Check Ins and Check Outs must be completed within 14 calendar days of the missed transactions. The 14 day allowance is the current day and the previous 13 calendar days, including weekends and holidays.

Using any touch tone telephone from any location, absence from child care services and sick days can also be reported using those transaction types. Each of these transactions is described in detail in this section.

For each Attendance Transaction processed, the IVR will confirm attendance. The provider also has the ability to view the transaction data through the Provider Web Portal.

Previous Check In

When a child is dropped off and a parent or designee is not present to perform a Check-In transaction, then the child's actual arrival time can be entered into the IVR system using a Previous Check-In. This transaction may be entered anytime within the current day or the previous 13 days. For example, if the child is picked up by a bus in the morning and the parent picks up the child in the evening, then a Previous Check-In transaction can be performed in the evening, followed by a regular Check-Out transaction to properly record the child care hours. The following are the procedures for this process:

IVR Message	Action/Description
Call is placed into Parent IVR.	Parent calls 1-800-997-3333. The call is placed using a registered land line located at the child care facility.

VI. Frequently Asked Question (FAQ)

What is New Jersey's ECC System?

- ECC stands for Electronic Child Care system. It is an automated attendance reporting and payment delivery system. This will allow the parent or designee to record the child's attendance through a card reading machine (POS).

What is an Interactive Voice Response system?

- An Interactive Voice Response system is used to record the time and date of the child's attendance at the child care facility using a touch tone telephone. This system prompts the caller to enter data using the telephone keypad.

How do I get an IVR device?

- Child care providers only need a touch tone telephone to reach the ECC system. No other special equipment is required.

Can I use a cell phone or internet phone?

- The ECC system requires you to use a registered line to ensure transactions are occurring at your child care facility. This requires your telephone service provider to accurately deliver caller id information. Cell phone and internet phone providers may or may not deliver such information. Also, cell phones may not allow the caller to generate the touch tones necessary to perform the attendance transactions. For these two reasons, a land line is highly recommended.

Do I have to use the IVR system?

- Child Care Centers serving more than five children who are receiving a subsidy must use a POS. Those providers serving five or fewer children in subsidy must use an Interactive Voice Response system.

Can providers use the ECC card for the parent or designee?

- No, providers are not allowed to be in possession of the ECC card or to perform attendance transactions. If a provider is found with a card, the provider may be terminated from the program.

What if there is more than one child in the family?

- Each child is assigned a specific child number formatted in two digits – 01, 02, 03 and so on. The assigned number will appear on the card mailer.

Will the IVR indicate whether the child is authorized?

- Yes. Once the transaction is entered into the IVR, the system will verbally confirm whether the child is accepted or denied. It is also displayed on the ECC provider web portal.

What if the parent or designee forgets to bring the ECC card or is unable to report the child's attendance?

- The parent or designee can catch up on missing days by using "Previous Check In/Out" process on the IVR system. They have thirteen (13) calendar days plus the current day to record previous transactions.

How will I be paid?

- Payments are made every two weeks for care provided two weeks ago. Payments are transferred directly into the banking account that you designate to Conduent.

What if my payment is incorrect?

- Contact your local CCR&R.

Whom do I call for technical questions for the IVR?

- Call the provider help desk at 1-877-516-5776.

Whom do I call if I have subsidy policy questions?

- Call the child care worker at the local CCR&R.

Provider's Page

The New Jersey e-Child Care Provider Web Portal is a powerful tool that gives child care providers the ability to view information about their agreements, attendance transactions, payments, and other program information. To start, enter your User ID (EPPIC™ Provider ID) and temporary password that was mailed to you with your Automated Clearing House banking form, tax form, and other material. After your first log-in, you will be directed to change your password and set your security question.

All information on the Provider Web Portal is secure and viewable only by entering your unique User ID and password. Providers will have access to only their account information.

If you are having equipment or other technical problems, please call the Provider helpline at 1-877-556-5776. For a child care policy question, contact your Child Care Resource and Referral Agency (CCR&R).

Resources for Providers

2. The first time you login to the New Jersey Provider Web Portal, you will use the following information: The User ID which is your seven digit provider number. The Password is the five digit zip code of your facility.
3. When you login for the very first time, you will be prompted to change your password immediately. Follow the steps below to set your new password.

Passwords must meet these requirements:

- Must be at least eight (8) characters long
- Must have at least one (1) lower case letter
- Must have at least one (1) number
- Special characters (such as \$ % & @ !) and UPPER case letters are allowed but not required
- Password must be changed every 90 days
- Password cannot be the same as the current password or the previous 5 passwords
- Password cannot be reused for one (1) year

Password Change on Initial Login

The screenshot shows the EPPIC™ User Password Change interface. It features three input fields: "Old Password", "New Password", and "Confirm Password". Below these fields is a "CHANGE" button. A message at the bottom states: "• You are logged in for the first time, please change your password."

1. Enter your current password in the “Old Password” field. (Since this is your initial login, the “Old Password” is still your five digit zip code.)
2. After considering the password requirements above, create a new password and enter it in the “New Password” field. Enter that same password again in the “Confirm Password” field and click on the Change button.

The screen will now look like this:

The next step is to create a security question to help you, in case you forget the password. Follow the steps below.

3. Select a security question from the drop down menu. Enter the answer in the “Security Answer” field and enter that same answer in the “Confirm Security Answer” field. You must enter the answers exactly the same. Click the “Save” button when finished.

When the security question has been saved, the system will automatically take you to the Provider Profile screen. This is indication that you have logged on successfully!

** NOTE: You will be prompted to change your password at the time of your initial login, and then again every 90 days.

Password Change if too many failed login attempts

If you attempt three (3) bad login ID’s or passwords, you will be locked out. If this happens, you will be able to create a new password as follows:

1. On the main login menu, click on the “Forgot Password” link underneath the blue “Login” button.
2. Enter your seven digit provider number in the Security Question screen.

3. You will be prompted to enter your Security Answer in the next screen.

The screenshot shows the EPPIC™ User Profile interface. At the top, it says "EPPIC™" and "User Profile". Below this is a form titled "User Profile" with three columns: "Security Question", "Security Answer", and "Confirm Security Answer". The "Security Question" column contains a dropdown menu with the text "What city were you born?". The "Security Answer" and "Confirm Security Answer" columns each contain an empty text input field. A "SAVE" button is located at the bottom left of the form.

4. After the Security Question has been answered correctly, the Change Password Screen will display. Follow the same steps outlined above to change your password.

****NOTE:** If you have forgotten your User ID or the User ID does not seem to be working, contact the Provider Help Line at (877) 516-5776.

Expired Password after 90 days

You will be required to change your password every 90 days as a security measure. The screen below will automatically appear when you login after 90 days without a password change.

The screenshot shows the EPPIC User Password Change interface. At the top right, there are links for "Reports" and "Admin". Below this is a "USER INFO" section. The main heading is "User Password Change". The form contains two text input fields: "Old Password:" and "New Password:". A "Change" button is located at the bottom right of the form.

1. Following the same password requirements, enter a new password in the "New Password" field.
2. Enter the same password in the "Confirm Password" field and click the Change button.

When the password has been saved, the system will automatically take you to the Provider Profile screen. This is indication you have logged on successfully!

Manual Password Change

You may also change your password at any time. To change the password manually, follow the steps below.

1. Login to the Web Portal.
2. Click on the Admin tab at the top of the screen. Then select the “Password Change” submenu.

3. The User Password Change screen will display. Enter the old password. Enter a new password. Then enter the same password again to confirm it. Click the “Change” button, just as the instructions above.

4. The screen will then prompt you to answer a security question. Follow the same instructions as above. Select a security question from the drop down menu and enter the security answer. Click “Save” to complete the password change.

When the security question has been completely saved, the system will automatically take you to the Provider Profile screen. This is indication you have logged on successfully!
