

WORKPLACE HEALTH & SAFETY

Join us for one or both of The New Jersey Work Environment Council (WEC) workplace health and safety trainings we are hosting!

PREVENTING EXPOSURE TO WORKPLACE CHEMICALS

Wed., Mar. 30, 2022 1:00-2:30 pm
NJCCIS Event #: 131471

Despite their useful purposes, chemicals can be dangerous to staff and children when managed improperly. Employers need to protect their workers from exposure to hazardous chemicals used for cleaning and disinfection. Common disinfectants can contain hazardous chemicals.

Join us for this virtual workshop as we discuss:

- Preventing chemical exposure
- Recognizing hazardous conditions
- OSHA's HazCom Standard
- Labeling of chemicals

The importance of effective hazard communication programs

VIOLENCE PREVENTION

Wed., Apr. 13, 2022 6:00-8:00 pm
NJCCIS Event #: 131472

It is important that early childhood educators, families, and children feel safe in their programs and there are several things that providers can do to build protection from violence in the workplace.

Join us for this virtual workshop as we discuss:

- Workplace violence prevention strategies
- Identifying safety system failures in the workplace
- OSHA recommendations that address workplace violence

Register on www.NJCCIS.com by putting the NJCCIS Event #s noted above in your "find Professional Development & Training Classes" search.

****IMPORTANT**** To the right of the date, time, and the button you use to register, there is an Event URL - YOU MUST REGISTER USING THAT LINK TO RECEIVE THE LINK TO THE VIRTUAL EVENT. Completing that Zoom registration creates an automatic e-mail that will include the link you need to enter the actual event.
